

BC United Soccer Association

Skills and Interests Survey

Spring, 2003

Introduction:

You all know that the club relies heavily on your willingness to volunteer. The Board is hoping that some of you might be willing to volunteer in ways that reflect your particular interests and professional training... We're thinking that you might prefer helping us write grants to helping pick rocks! Or, you could do both!

Please take a few minutes to share with us your skills and interests. Be assured that the results of this survey will not be shared beyond the club.
